Green Lake 2021 AIS Boat Inspection for AIS Prevention YE Report Summary by Gordon

Thank you Stephanie for providing the WIP Data file!

After several data sorts and maybe more than a few analysis minutes,.....

I got Green Lake 2021 Boat Inspection summary I was looking for.

Green Lake 2021 Boat Inspection summary from WIP Data File: Total Records 3,011

-Inspection Time Period Records: May 1, 2021 to Sept 29, 2021

-Number of boats launching/ENTERING on Green Lake that were Inspected: 1,440 total

(Inspectors on duty: M-0hrs, T-6hrs, W- 6hrs, TH-6hrs, F-8hrs, Sat-9hrs, and Sunday-9hrs = 44 hrs/week)

-Number of weed finds/violations on ENTERING boats/Trailer : **6**

SPP finds on Trailers- NO Zebra Mussels

(.4% of all boats launching had a weed violation)

-Number of boats EXITING Green Lake: 1,571 total

- Guessimate number of boats NOT inspected ENTERING Green Lake during off-duty times: 700-900

-Last Lake visited & Next lake data validates the AIS Model map with hundreds of locations boaters come from to launch on Green Lake,, some coming from other infested lakes

- Number of Boater Entering and Exiting Green Lake with more /continued AIS Awareness: 3,011

Again, Stephanie, from observation and personal boat launching experiences, your Inspectors did very satisfactory job!

Hope,
Gordon H
