

5/14/20 GLID Board Mtg

attendees: Gordon + Jan, Jim H, Mel + Clint, Barbara + Ken,
David, Dan (late)

absent: Larry Lindquist

2019 Secty Rept — had in budget, no Qs so good

2020 Budget

Tax Levy - won't see until after July mtg
\$ for EWM was covered in var. spots of budget
in Lake Access Inspections (had to go thru
Tiffany Johnson) - wanted to hire extra
staff + didn't have \$ for more

first 2 budget items have been pd

Clint Q: if have extra \$ would we ever shock the lake?
hold Q for later using ALUM

Annual mtg - still good for July 4th, starting 8:00 am
make sure signs + website are right time! (4:19:30)
(website was wrong last year)

Ken will handle all the signs, cover all accesses
put out the weekend ahead of July 4th mtg
trifold in mail? incl in letter for lake weed mgmt
by Lake Restoration (Dan says it looked like
was one of their brochures)

Mel does website, keeps current

Barbara does newspaper input

G will send another newsletter

Wyannett Newsletter, once a year, our 2021 mtg
notice will be incl (G talked to Kathy Lundeen)
at no charge

Fbk pages - 1 is down, ^(~200 likes) is up ^(~30 likes) (Ellen took
Caley did it but he doesn't own up to it ^{the one down})
Mel wants to get ^{both of} these two down rather than
start new one while other pg still up

do a one-time mailing for inclusion of
Fbk pg, our website + mtg schedule
pumping out newsletters

if Googled Green Lake, website doesn't pop up
first (would have to spend lot more \$),
Fbk page would come up first, if put in
Isanti Cty would show up

46 Ken } 189 Green Lk properties are part of Wyanett
swimming beach @ Spec Lake ^{being} fixed, ^(run off proj) only swimming
beach in country, on Spec

working on doing rain garden a part
+ 116K total grants for 3 projects on Spec (their prjs
don't apply to us)
all thru ISWD (Tiffany)

Blue Lk also has proj (they're getting grants too)
Spec now has Zebra mussels (found last Fall)

Dave has found some mussels on his shore station
but don't know if Zebra mussels - if find
again, save in plastic bag and get ^{to} someone (Todd)
to ID

elections -

bylaws say elect 3 members every yr,
never have vols, ask if any + if not stay
there are board members who would like to
retire from board is get new vols

CLP survey done today, lots of CLP
if we get Diquet will get rid of CLP
(kills ... conflict betw AIS + fisheries)

\$967 bill for CLP survey to AIS Sites
next survey later

2020 budget sheet a \$7000 grants
(we don't get \$, must send in receipts
+ if don't spend \$7K we don't get \$7K)

gates to cover water level, close by flap gates
we have no control over gates, can't use sluice
gates to control lake level, it is working
as should

only got 8 Lakeshore prop owners to sign up
for weed control

par Ken, haven't had good luck, too many
weeds

Gordy asked them to use Diquat vs Aquathol
skip forward

Tiffany (New Business)

applied for grant for entire watershed, found out
had to pick focus area + that is Green Lk

\$280K grant, 16 yr prog

pretty sure will get grant (only 4 in state)

hope to incl fields + higher erosion progs
ditch + agricul progs

EPC wants to see lakes meet clean water
stds - 16 yr down road

would get \$ this winter

incl work w/ Nature Conservancy + Fish + Wildl.

county looking @ doing ditch inspections

ditch 16 is in critical area - it is Northbrook

how to plan for the grant \$ - do we have to
match -

40% match req'd (\$112K) over 4 yr period
can use CLP⁶ treatment

community
Partners
grant 10K ICSB part 2 yr - GLID continue
\$5 or 10K

help fund monitoring - go toward match

match from landowners goes in to

Ken: any kind of in kind services that can be used
toward match? yes

show that spent the \$ (might need receipts from various treatments) once get grant, will know what receipts when do we pay match up front?

the plan is not to have to pay GLID isn't on the hook for the \$10K matching could factor Wyandott Township receipts like Feldspar, runoff (has to be planned in grant

start accounting when grant is approved this year's Lakeshore restorations can't be counted

what are the odds of getting the grant 95% PCA has said it is in the grant

Den - Lakeshore restoration:

SWCD \$10K + GLID \$5K - \$5 properties

last yr's proj's got started too late

washed out lot of plants on east side
(Plates - totally gone)
going to start earlier

lot of washing from lake waves vs hillside

so will need Engg work
some want to plant themselves, kick \$ in for plants

some go back + fix + apply some \$

Memorial Day - revisit some properties (incl plates)

have already picked ~ 5

will have identified properties before July mtg

25% homeowners kicks in (labor & questions mechanism) due to in kind service

were worried about getting participation

the \$5K isn't in budget - ~~but~~ wanted to have

flexibility - Barb will add it into budget

has 11 sites looked @ for 2020, never had that many

what should we put in ²⁰²¹ proposed budget? no SWCD

funding - should we ask people - if keep proj active

Clint. do we keep same amt as budgeted for 2020?
ie \$10K

if we were to incr, would have to ~~keep~~ incr less
in homecare

runoff from around lake is big prob
can we afford to do nothing?

find more efficient ways to ~~keep~~ get \$
labor isn't covered? volunteer to help
budget covers plants & design, homecare
supplies the labor (can't afford to do in-kind)
or ask for 15% back

G - put \$10K in budget - \$2K allocated per
property & they pay the rest, get 5 properties
done (let Dan manage it... don't specify rest of
details)
maybe go to county @ some point

Green Lk Septic System - when sold, must have
septic checked but don't do much to force upgrade
maintaining into lake will be enforced by state -
we will not do anything on it

Studies - no more will be bought right now
no core studies are planned to be done

ICCOTA partic / fees \$50

they have sent some people to mtgs
some good sharing of info
\$50 is worth

MN Lake & River Org donation \$100

Ken needed we do, G second
vote
all agreed

Green Lk Valley: stocking every 2 yrs

Isanti Cty Sheriff vs DNR vs zoning
reckless boating - Sheriff, Lake water quality - DNR,
Landowner violations - zoning

Trash Containers @ Access?

we've tried it, not worth the hassle

One River, One Plan

no one involved beyond the one mtg Dan & G attended

Budget

keep tax levy base @ $\pm 2.5K$

any \$ we don't use in 2020 will go into 2021
don't reduce budget because may not get
\$ in 2021 in various areas

Denis UK Restoration \$ has been in minutes
(debit ~~and~~ incl in budget
because was contingent on SWPD \$)
now will add to budget

Something about proper use of compost area
like weeds, grass clippings, leaves
located betw the two bldgs down from town hall
